

ALLT

European Tour 2026

Formed in 2020, Allt is a progressive metalcore band from Karlskoga, Sweden. Known for their audiovisual storytelling and innovative approach to metalcore, Allt has just released their highly anticipated debut album, "From The New World." The name Allt, which means "everything" in Swedish, reflects the band's philosophy towards music: never to be confined within genre boundaries and continually delivering conceptually rich compositions inspired by the world around us and the stories and myths told through the ages.

After the release of their early EPs Dark Waters (2020) and The Seed of Self-Destruction (2021), Allt quickly earned recognition for their genre-transcending sound. What began as a studio project soon grew into a live force, with tours alongside Animals as Leaders and Bleed from Within laying the foundation for the next chapter of their journey.

In October 2024, the band unveiled their debut album From The New World, a concept record exploring collapse, survival, and the human condition. Praised as one of the most compelling metalcore releases of the year, the album connected deeply with audiences and set a new standard. Its success was matched on the road, with the band supporting Imminence across Europe. Following up in the beginning for 2025 with a sold out headline tour and later sharing US stages with Invent, Animate and Silent Planet.

Now returning to Europe for a full festival summer followed by a European headline tour in winter 2026, Allt enter a new live chapter defined by scale, intensity, and a renewed creative focus. With special guests Avralize and Bite Down, the tour marks the band's most ambitious production to date.

Alongside a selection of major European festivals, the winter run will see Allt headline venues across Europe, bringing a live show that reflects the band's current evolution, more immersive & more dynamic than ever.

The band comments:

"We're thrilled to bring you our biggest, most ambitious live production to date. We're also very grateful to share the stage with the immensely talented Avralize and Bite Down. This will be Allt at our most vibrant yet, we can't wait to get on the road again."
