Kiss The Sun Europe Tour 2026

Asal is redefining Alternative-Pop with a sound that fuses dark pop, indie production, and emotionally raw songwriting.

Since releasing her debut EP Missing Something, Asal has amassed over 150 million streams and sold out her first North American headline tour. At just 18, her breakout record "Liar's & Players" put her on the global radar, leading to a 30-city tour across Europe and North America supporting Artemas.

She later collaborated with Grammy-nominated DJ Marc Kinchen (MK), performing their track "She's In The Club" on the Main Stage at EDC Las Vegas. With "Tolerance" premiering on BBC Radio 1 and the release of "winter's gonna come," Asal now enters a new era with her upcoming EP, Kiss the Sun.
