Casey Lowery

Live 2027

Casey Lowery is a British indie artist, songwriter and one of the UK's most exciting independent success stories. Blending the emotional depth of Radiohead and early Coldplay with infectious indie-rock melodies, sharp humour and deeply personal storytelling, Casey has built a global audience of over 7 million followers and billions of views across social media, all while challenging the traditional music industry model and forging his own path.

Born and raised in the working-class town of Chesterfield, Casey's musical journey began at just 14 when he wrote his breakout track Trampoline. The song quickly gained attention from major industry figures, leading to a record deal and a move to London. However, after becoming disillusioned with the traditional label system, Casey found himself back home during the pandemic, rebuilding his career on his own terms. Through a combination of brutally honest songwriting, tongue-in-cheek humour and an unmistakable personality, his content exploded online, attracting 150,000 TikTok followers in a single week and interactions with global stars including Rihanna and Doja Cat.

Since then, Casey has transformed viral success into a thriving international touring career, completing four sold-out headline tours, including landmark performances at London's iconic KOKO and Manchester's O2 Ritz. His growing international presence has seen him perform across the UK, Europe, the US, South Africa and Australia, while sharing stages with The Reytons, Milky Chance, Walk Off The Earth, James Arthur, LANY, Conor Maynard and Jack & Jack. Continuing his global expansion in 2026, Casey is touring Japan, New Zealand and Australia with The Reytons, alongside an upcoming 2027 UK and European headline tour.

With over 3.8 million TikTok followers, 1.4 million Instagram followers, 723,000 YouTube subscribers and more than 483 million lifetime YouTube views, Casey has cultivated an exceptionally loyal fanbase. His online success is matched by his live performances, with sold-out shows around the world and an audience that continues to grow without the backing of a major label.

Now fiercely independent, Casey continues to prove that artists can thrive outside the traditional industry structure. His fan-funded follow-up project, LEKKERLAND 2, raised over £26,000 from more than 700 Kickstarter backers, demonstrating the remarkable connection he has built with his community. His journey and music have also attracted attention from Rolling Stone, BBC, CLASH and The Independent, further establishing his reputation as an artist doing things differently.

With new music, international touring and an expanding UK and European live

schedule ahead, Casey Lowery is entering his most exciting chapter yet - building a career driven by authenticity, independence and a genuine connection with the people who listen.
