ÀNV RISING – EUROPE Pt. III

Swiss metal collective ELUVEITIE have just announced a grand EU/UK headline tour, bringing their unmistakable blend of melodic death metal and Celtic folk to fans across the continent.

Joining them as direct support are industrial metal pioneers Pain, alongside Finnish melodic death metal force Wolfheart as special guests.

Spanning nearly a full month and hitting 23 cities, the tour promises a relentless and immersive live experience that have become ELUVEITIE’s trademark.

Following a triumphant festival summer and a series of sold-out headline shows, the collective continues to ride high on the momentum of their latest chapter. Fans can expect a dynamic setlist blending new anthems with beloved classics – a celebration of past, present, and the ever-rising future of the band.

ELUVEITIE comment:

"We’re excited to continue the ÀNV RISING journey!

Join us this November & December as we return to stages across Europe alongside Pain and Wolfheart. Where are we going to see you?"
