## Get To Heaven 10th Anniversary

No-one quite operates in the realm of the visionary Everything Everything. Setting dystopian 'Black Mirror'-style concepts to songs which thrillingly find the sweet spot between esoteric experimentation and art-pop accessibility, the band have earned critical acclaim and a devoted following in equal measure, leading to five Ivor Novello and two Mercury Prize nominations, a run of six consecutive Top 10 albums, and major headline shows including London's Alexandra Palace.
