

Maria Iskariot

THEY ASKED FOR IT VOL 3 - Die FLINTA*

Maria Iskariot still has no answers to your questions. Yet they extend a wet hand to anyone who has rehearsed the steps to the Waltz Of The Hopeless. The four-headed dog has grown into a tender monster that celebrates friendship, washes contempt, and underscores Life. They delight the world with a brilliant imperfection as a joyful protest against the age-old evil.

On October 31, they'll release their debut album, **Wereldwaan**, already hailed by critics as a timeless cult classic that holds today's delusions up to the light of eternity.

The album will be released by Burning Fik, the Dutch label run by Faberyayo (De Jeugd van Tegenwoordig) and Abel (Hang Youth). The album will also be released in Spain by Montgri, cementing their presence in the trans-european punk scene.
