Telenova return to European and UK stages this May for their third headline tour across the region, celebrating the release of their sophomore album THE WARNING (out Feb 27).

Featuring lead single THE DEEP, the record pushes the trio’s cinematic, sample-driven sound into darker, more urgent territory. The run sees them revisiting London, Paris, Berlin and Amsterdam, while expanding their footprint with their most extensive European and UK itinerary to date, following a breakout period that’s seen Telenova play major festivals across Australia and Europe, support girl in red, St. Vincent and Ruel, and take home a growing list of accolades: the 2022 AIR Breakthrough Artist award, multiple music video awards, a celebrated appearance in the Triple J Hottest 100 and a feature in the Guardian UK’s Ones To Watch.
