# The Teskey Brothers

The Teskey Brothers are returning to the UK & Europe in September 2027 with their biggest headline tour to date. With new music set for release next year, the soulful Australian siblings will bring their extraordinary live show to iconic venues across the continent for what promises to be an unforgettable run of shows.

Over the past decade, The Teskey Brothers have captivated audiences around the world, building a reputation for performances that hit straight to the heart – from Josh Teskey's unmistakable, soul-drenched vocals to the band's soaring arrangements and electrifying musicianship. With a new album ushering in the next chapter, this tour promises to be a landmark moment for the band and their devoted fanbase.

Joining them as special guests are fellow Australian heavyweights Ocean Alley, bringing their expansive, psychedelic-tinged sound to an already unmissable bill.

Two of Australia's most exciting live acts. One huge tour. September 2027.
